

VITAL**Amendments Made to Code Bill.****Division Line****Between Cities and Villages Unchanged.****The Coming's Health Code Incorporated Into the General Bill.****A Local Option Law Discussed and the Lease School Bill is Launched—Senate Also Industrious.**

Columbus, Sept. 15.—The senate acting as committee of the whole, by an overwhelming majority decided to leave the line of division between cities and villages at a population of 1,000. The vote was preceded by a long debate, in which Mr. Harrison and the fight for the little municipalities. The amendments were opposed also by Messrs. Chamberlain and Johnson. There was considerable talk during the discussion of inserting in the code a provision giving all municipalities of 30,000 inhabitants or more, police courts.

The special committee presented a report recommending that the control of the health department be vested in the board of public safety instead of in the board of public service. An amendment offered by Mr. Krause, to continue in their positions the sanitary police officers now under the merit system in Cleveland or elsewhere, was approved.

The mayor amendment to the Nash bill was presented in the senate. It is a modified modification of the York bill as originally introduced. It draws the line of demarcation between cities and villages at a population of 1,000. It provides for mayor, auditor, treasurer, and in certain cities for police judge and police court clerk. All of which are to be elected for terms of three years.

Action was deferred temporarily upon the Anti-Saloon league's amendment to the Nash code, whereby the local option law in such manner as to leave no doubt of municipal council's power to surrender.

The special code committee of the house continues its work of making vital amendments to the Nash bill. An important act was the vote to increase from 10 mills to 15 mills the tax limit in municipalities. The committee voted to incorporate in the bill the Coming's health code, enacted at the last session. This action was desired by the state board of health and many of the local boards.

The lease school code was introduced in the house. It provides for the election of a board of education, consisting of one member from each ward, who shall serve for a term of three years. One-third of the board goes out of office each year. The board appoints a superintendent, who is subject to removal at any time for cause without cause. The superintendent is authorized to appoint all teachers, but his appointments can not go into effect until they are approved by the board. The business branch of the school system is left entirely in the hands of the board. In case there is an even number of wards there shall be one member of the board elected at large. The superintendent may not dismiss a teacher without the approval of the board.

COMPELLED**To Tear Himself Away from Gay Newport.****Grand Duke Boris Feels that the Old World Cannot Get Along Without Him.**

Newport, R. I., Sept. 15.—The Grand Duke Boris, who has been dining and feasting during the past two weeks by Newport's high society, leaves today for New York, whence he sails tomorrow for Europe. The Grand Duke expresses himself as delighted with American hospitality. He says he had no idea of making such a long stay in this country, but the sights have been so bewildering and the pleasures so numerous that he now regrets that his engagement abroad makes it imperative for him to depart.

A PLUCKY OPERATOR**Kills One Burglar and Routes the Rest After Receiving a Bullet Wound.**

Fort City, Pa., Sept. 15.—Carl Richard, night operator on the Allegheny Valley road at this place, shot and killed a man who attempted to burglarize the station at 5:10 o'clock this morning. The burglar wounded the plucky operator by shooting point blank at him. The bullet clipped off the upper part of Richard's right ear,

SUPPLY OF WOOD FOR TIES MUST END SOON.**The Problem is at Present Attracting Railroad and Steel Men.**

New York, Sept. 15.—Railroad managers and steel manufacturers are freshly interested in experiments with steel ties. This is not a new subject, but it is steadily increasing in importance, and as time lapses without any satisfactory substitutes being found for wood ties it is likely to become really of moment. More than 100,000,000 ties are annually required by the railroads for their 200,000 miles of roadbed, and to supply this enormous quantity there is yearly sacrificed the equivalent of a forest one mile wide stretching from the Atlantic to the Pacific.

As the necessity for finding a substitute becomes more urgent, inventors are expected to rise accordingly. Close observers of this situation are persuaded it is a question of a short time only until some number of satisfactory steel railroad ties shall be produced. Experiments have been going on for several years until recently they were conducted in a more or less indifferent manner.

THE FIGHT FORSAKEN**By the Brave Men Who Have Tirelessly Struggled With the Awful Forest Fires in the Far West.**

DENVER, SEPT. 15.—ALL HOPE OF PUTTING OUT THE FOREST FIRES THAT HAVE BEEN RAGING FOR SEVERAL DAYS IN THE TIMBER SECTIONS OF THE ROCKY MOUNTAINS FROM THE WYOMING LINE TO CENTRAL COLORADO, ABANDONED. NEW FIRES ARE BEING REPORTED DAILY AND THE OLD ONES ARE SPREADING WITH AMAZING RAPIDITY. GOVERNMENT INSPECTORS SAY THE FIRES WILL HAVE TO BURN THEMSELVES OUT.

STATUE OF SLOCUM WILL BE UNVEILED**By Surviving New York Members of the Army of the Potomac.**

New York, Sept. 15.—The New York members of the society of the Army of the Potomac, under escort of the Seventh regiment, will leave tonight for Gettysburg to attend the thirty-third annual reunion. The reunion will be of extraordinary interest this year as a feature will be the unveiling of the equestrian statue of General H. W. Slocum. The unveiling will take place tomorrow and will be accompanied by an extensive program of ceremonies. The governors of New York, Pennsylvania and New Jersey will speak, as will prominent officers of the army. Besides the Seventh regiment of this city there will be in attendance the veterans of the Nineteenth infantry and five batteries of artillery, which served under General Slocum. The statue is erected by the state of New York, of which state General Slocum was a native.

OUT**For Good from Race for Congress.****The Big Fight****Which will Come on During Next Session****Over a Revision of the Tariff Laws and Attack on Trusts.****Drove the Speaker Out of the Contest in Which He Believed He Would Be Defeated.**

Washington, Sept. 15.—Political leaders here assert that the announced determination of Speaker Henderson not to make the race for congress in his district in Iowa is but an incident in a tremendous fight that is to be carried on this winter in congress for a revision of the tariff, and it is predicted that both parties will be divided on the question. The announcement from Oyster Bay that the result of the conference of Senator Hanna and other leading senators with the president has been to settle upon a determination not to revise the tariff this winter but to add to the interest. Speaker Henderson's course means that tariff revision, either for itself or for the purpose of subduing the trusts, is an issue that will be projected into the campaign this fall, and as a natural sequence into the presidential campaign two years hence. It means also the collapse of the oligarchy which has ruled the house in such a manner as to make possible the spectacle, afforded four times last season, of a majority party overturning its own leaders. It emphasizes the fact that President Roosevelt, no matter where he places himself with regard to the revision line, will make antagonists in his own party.

George E. Roberts, director of the mint and the publisher of the Des Moines Register and Leader, says: "The speaker's action is unaccountable to me. His letter does not reveal any reason that seems sufficient to justify so extraordinary an act. He says that he is out of harmony with a great many Republicans in the state upon the tariff issue, but he indicates that the state platform is not unacceptable, and I see no reason why he should be disturbed by the expression of individuals. He attended a conference of Republican leaders at Des Moines two weeks ago, which was also attended by Governor Cummins and others who favor tariff revision, and they had a frank discussion of the situation, which ended harmoniously. The speaker invited the government to make several speeches in his district, and the latter agreed to do it. The clause of the platform declaring for any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly has caused the discussion out there."

HORSE SHOW**Brings Society Out in Full Force at Bryn Mawr.**

Bryn Mawr, Pa., Sept. 15.—A large turnout of society made a brilliant scene today at the opening of the eighth annual Bryn Mawr horse show. The equine display is the best in the history of the association. It comprises fifty-four classes, ranging from the thoroughbred, through all varieties, to a farm team. The exhibition will continue through the remainder of the week.

ONE COMPANY**Seems to Have Things Pretty Much Its Own Way.**

Chicago, Ill., Sept. 15.—A feature of the westward freight shipments is the large number of new locomotives en route to Western lines. Very few through billed trains pass through terminal points that are not partially made up of the product of the American Locomotive Company. It is estimated that orders for nearly 600 locomotives were given out last week by various railroads centering here.

TEDDY'S WINDPIPE**Will be Carefully Oiled Each Day by a Surgeon Taken Along for That Purpose.**

Washington, Sept. 15.—The official schedule of President Roosevelt's trip was made public today. He will start tomorrow and during 19 days will visit 13 states. Among the cities he will visit are Cincinnati, Detroit, Kokomo, Ind.; Milwaukee, Minneapolis, St. Paul, Yankton, S. D.; Lincoln, Neb.; Omaha, Topeka, Des Moines, Iowa; St. Louis, Chicago, and many way points. On the way home he will visit Toledo for an hour or so and will spend all day Sunday, Oct. 5, in Cleveland.

President Roosevelt will be accompanied on his northwestern trip by Dr. James J. Richardson, the well known throat specialist, whose sole duty will be to keep the chief magistrate's speaking apparatus in good working order. It will be the first time in the history of presidential tours that such a specialist has been employed, and proves that President Roosevelt regards his coming jaunt as the hardest he has yet undertaken.

HONOR THE MEMORY OF LOUIS KOSSUTH.**Hungarians Throughout the World Celebrating This Week.**

Philadelphia, Pa., Sept. 15.—This week the Hungarians throughout the world are celebrating the 100th anniversary of the birth of Louis Kossuth, the famous statesman, soldier, orator, writer—"the father of Hungarian Liberty." In the United States, where Kossuth was received with great honors in 1851, the Hungarians and their descendants are commemorating the anniversary in various ways. In Harmonic Hall, this city, tonight notable exercises will be held under the auspices of the United Austro-Hungarian societies. The speakers will be Col. A. K. McClure, who was a personal friend of Kossuth; Hon. Charles Emory Smith, former postmaster-general, and Prof. Arcade Mogorossy.

PEARY RETURNS FROM HARD TRIP, Although He Didn't Bring Back Even a Splinter of the North Pole.**Many Hardships Encountered During the Voyage Which was Further North Than Any Before.**

North Sydney, N. S., Sept. 15.—The Windward, in accordance with an arrangement made when he left Peary, north on board the relief ship Windward, at 8:15 o'clock this morning. Dr. Dedricks was also aboard. Peary did not reach the pole, but on the last dash, made important discoveries. As Lieutenant Peary stepped ashore from the Windward, he said to waiting newspaper men: "My last dash for the pole, was a most successful expedition. I was further north than 83. 27 was my previous record." Peary is in remarkably good health. Mrs. Peary, who went north on the Windward to greet her husband, was ill for a fortnight, but is now well on the road to recovery. Dr. Dedricks, whose row with Peary resulted in his leaving Peary a year ago, since which time he has been living with the Esquimaux, is apparently in good health. He was picked up at Etah by

the Windward, in accordance with an arrangement made when he left Peary.

MANY HARDSHIPS**Encountered by Peary in His Last Trip North.**

Explorer Peary got as far north as latitude 84.17, the highest point yet attained on this continent. Peary made the dash in the face of great odds. He left Etah harbor on Aug. 29, 1901, and reached Payer harbor Sept. 16. A week later his Esquimaux began to feel sick. In a month six adults and one child were dead. All others had been ill but were recovering. Couriers were sent to Aniak for help but as the tribe there was passing through an epidemic, it was a month before any could come. Then he started back.

BOYS IN BLUE TO BE BURIED IN AMERICA.**Bodies will be Returned From Philippine and Hawaii Islands.**

Washington, Sept. 15.—The bodies of all American soldiers, sailors and marines, who have died in the Philippines, or Hawaiian Islands, are to be brought home and given to relatives. There are said to be 800 such buried in the Philippines.

A detachment of the United States burial corps left this city last night for the purpose of exhuming the bodies, and preparing them for shipment to the United States. The government will pay all bills.

RANKS**Of Both Opposing Forces****Standing Pat****With No Prospect of a Break.****Mitchell Insists There Will be no Break on His Side and****Further Maintains That There Will be No Coal Mined Until the Strike is Ended.**

Wilkes-Barre, Pa., Sept. 15.—Inactivity at President Mitchell's headquarters and apparent activity in coal operators' circles covers the situation in this section of the strike region. President Mitchell still insists that his followers are remaining firm and that there will be no break in the ranks of the miners. He discredits all reports about an increase in output of coal at the mines and washeries, saying that there will be no coal mined and sent to market of any account until the strike is ended. At the offices of the local coal companies, on the other hand, it is said that they are adding to their working force every day and that the output of coal is gradually increasing, but no figures are furnished.

End of the Strike.
Chicago, Sept. 15.—Word was received in Chicago from Henry E. Weaver of the Weaver Coal company, who is in Buffalo, that the anthracite coal strike will soon come to an end, that one of the largest mines in the heart of the disturbed district in Pennsylvania is about to give in to the strikers and that other mines will directly follow the example of the leader.

It is a comparatively new organization, as this meeting will be its second national convention.

Wm. N. Whitely, the Springfield, Ohio, leading republican who has left his party, says: "The people are getting tired of being dominated by trusts and thousands of republicans are going over to the ranks of the democrats."

Secretary of Agriculture Wilson, on his return from Iowa, defined the Iowa platform as meaning that Iowa republicans demanded a revision of the tariff that protected the products of the trusts. President Roosevelt is opposed to tariff revision and Mr. Wilson has discreetly lodged an anchor to windward by securing an option on the presidency of the Iowa state agricultural college.

OHIO'S POLITICAL CIRCUS SEASON.

"Wait for the Biggest Show on the Road! Wait for the Great Palace Car Show! A Live Senator and a Live President Coming!"

The Tom Johnson circus has started out for the Ohio season and the big tent has been filled to overflowing at every stand. Its fame has gone out to the remotest corners, and the announcement that it would appear at a town on the circuit on a given night lines the roads for miles with farmers' wagons headed towards the tent. The success of the performance is testified to by the tumultuous applause that increases as the evening wears on, and when the farmers hitch up for the homeward journey they are full of the good things they heard in the tent and go home to spread the fame of the circus and repeat what they heard there.

The managers of the opposition show have taken alarm and are making hurried preparations to follow up and overtake the Big Tent circus. Warnings have been sent out to places not yet reached by the Johnson show to "Wait for the Best!" Hanna's (Universal Palace Car) Aggregation will set out as quickly as the company can be got together, and day and evening performances will be given in switchyards and sidetracks along the lines passing through or near the towns on the route of the Big Tent Show. The loss of the Palace Car Aggregation will appear on the rear platform at every performance together with a number of other experts at political spellbinding. It is expected that the

president of the United States will show himself at a few points along the route, to draw attention away from the big tent reform tent.

With the Biggest Tent Circus and the Finest Palace Car Aggregation on the road in opposition, it promises to be the most brilliant political circus season Ohio has known for many years—Cleveland Plain Dealer.

According to the itinerary prepared by Mayor Johnson his tent will be pitched in Lima next Tuesday.

WELL PLEASED

With the Concert at the Congregational Church.

A small but well pleased audience attended the recital at the Congregational church last night and sat through a program arranged by Prof. Scholz, of the Scholz musical institute, which introduced Miss Hilliard and Miss Heutz in piano selections, while Prof. Scholz rendered several pieces of the great masters on the violin.

It required somewhat of a musical education to thoroughly appreciate the highly classical numbers, but the manner of their rendition proclaimed all the more credit for the performers, and especially was Miss Heutz appreciated for her work was remarkable for a young lady but fifteen years of age. Prof. Scholz is a master of the violin and Miss Hilliard added much to the splendid program.

UNION LABOR

Will Celebrate the Big Day of the County Fair.

Another thing that is bound to make at least one day of the Allen county fair popular, and which will no doubt be a fixture from now on is Union Labor Day. This inspiration was born to Oak Lodge No. 259, Bollemakers union and they have selected Thursday for the celebration.

It will be of especial interest to the sons of labor, all of whom are cordially invited to attend the fair and help carry the aim of the bollemakers to a successful issue. Many new features will be added and the members of the union are working with the fair board to make the day the most gratifying to visitors in the history of the association. The bollemakers will have a refreshment stand where lunch and soft drinks will be served during each day of the fair.

Little Girls Assaulted.

Hamilton, O., Sept. 18.—Joseph Roth, a gardener, is under arrest here, charged with a murderous criminal assault on Hattie and Stella Motzer, aged seven and six years. The little girls are the children of Charles H. Motzer and were enticed into an alley by a stranger, who offered them candy. In the alley the stranger assaulted both and struck Hattie on the head with a blunt instrument. The police telephoned Dayton for bloodhounds. These were put on the trail and led the officers directly to Roth's house. Roth strenuously denies the crime.

Craters of Soufriere.

Kingstown, St. Vincent, B. W. L., Sept. 18.—Both craters of La Soufriere have been active since Sept. 11. The top of the mountain is usually covered with clouds, but being exceptionally clear of them Wednesday, two natives named Cummings and Adams ventured to ascend the volcano and reached the summit of the old crater. Sept. 5 this crater contained water. It is now entirely filled with sand and has a funnel-shaped cavity in the center. Cummings and Adams saw flames rising from three distinct places in the crater. They experienced a narrow escape. The heat on the mountain was intolerable.

CLOSER

Acquaintance With a New Oil Company

Which Has Taken Up Headquarters in Lima.

Headed by Good and Reliable Men Who Have Had the Advantage of Years of Experience.

Railroads and other conveniences the city of Lima affords, causes people from neighboring towns to locate here. Among the latest is the National Oil Company of Wapakoneta, Ohio, which has opened an office at 56½ public square. Concerning this company the Oil News in a recent edition says:

IN AUGLAIZE COUNTY
The National Oil Company Operating on an Extensive Scale.

A representative of The Oil News was sent into the Auglaize county oil field last week in order that a report on the operations in that county might be secured first hand without having to depend upon the regular correspondents for information. It took a whole day to cover the county in a way that would have a good impression of the work now being done, but the results were entirely satisfactory. It was, of course, impossible to cover the entire county in that short time, but enough facts were gathered to leave a most flattering impression upon the mind of the Oil News man.

Throughout the county it was noticed that The National Oil Company is perhaps the most active company engaged in developing the territory. Nearly every township in the county has been tested by this company, and in all there were found to be 28 wells now pumping, all of which belong to the National Oil Company.

The first property listed was that lying in Duchowet township. Here the company holds leases on two farms, the Collier heirs, section 8 and the A. Bowsher, section 17. In all the territory controlled in this township by this company covers 240 acres. There are six wells connected with a power pumping plant which is run by a gas engine. This property is located in fine producing territory and all the wells have a settled production that is quite satisfactory.

Next in line is the Logan township property, located on the G. Brown farm, section 28 and 33 the Phil. Brown farm, section 29, the A. J. Walter farm, section 29, the Joseph Alspaugh farm, section 28, and the Dan Gracely farm, section 30. In all there is a territory covering 690 acres in this township, with 17 producing wells, operated by 4 engines and connected by 3 pumping powers. All the wells in this territory are good ones, producing no salt water but lots of oil. The writer was on the top of four tanks and saw a steady stream of oil flowing into them at a nice rate.

In Moulton township were found 3 producing wells, located on the Michael McGuff farm in section 21. These wells are also run by a power and a total acreage of 112 acres is under process of development. This territory is new and so far the wells drilled in are above the average in production. The McGuff farm is located some distance from former developments.

Down in sections 22 and 26 the same company holds leases on eight farms, a total acreage of 580 being represented. Here are 8 producing wells and 2 pumping powers run by steam and gas engines. These wells have been drilled in for a number of years and have stood the test very nicely. The production is very good indeed. In the same township the company also holds leases on 425 acres of undeveloped territory which they are now engaged in testing. This property lies in section 32 where they have recently completed a well on the Wm. Rein farm. This well started off at 7 barrels a day and is now being pumped steadily with a nice settled production.

In Washington township the company holds leases on 6 farms located in sections 19, 29 and 30 on which there are 5 wells run by steam engine. There is a total acreage of 471 acres in this locality.

The company also holds some valuable leases in Van Wert county, comprising 84 acres in Ridge township located right in the seat of the most active operations in that county. They also hold 1200 acres of leases in Kentucky which they will develop as soon as it seems expedient.

In all the National Oil Company has 28 producing wells; they have leases on 2400 acres of good developed territory in Auglaize and Van Wert counties besides over 400 acres in Wood and Hancock counties. They have at least 150 locations for new wells on their Ohio properties which the writer

AT BRUNSWICK, ME.

Iythian hall (Brunswick, Me.) was crowded last evening, (June 5,) with people listening to an address by Carol Norton, C. S. D., of New York city. His subject was "Christian Science is Applied Christianity." Mr. Norton is a member of the Mother Church of Boston and is one of the lecturers at large of that church. He is a forceful, convincing speaker, and had his audience in full sympathy with him from the beginning. Mr. Norton is a native of Maine, hailing from Eastport, and is a second cousin of Henry W. Longfellow.—Lawton, (Me.) Journal.

BUNCO

Case is in Mayor's Court.

Two Prisoners

Held on Charge of Highway Robbery.

One is Positively Identified by the Victim of the Game.

A Quartette of Youths Fined for Violation of the Curfew Ordinance—Two Tramps Released.

Two young men who are believed to be the strangers who worked the bunco game on Elias Grafton near the P. Ft. W. & C. depot yesterday and escaped with \$9 of his money, were captured at Bluffton last night by marshal A. L. Conrad, of that place.

Some time during the evening after Mr. Grafton had been fleeced out of his \$9, the two fellows who are now prisoners, left the city on board an east bound L. E. & W. train. They were put off of the train at Beaver Dam and from there they walked to Bluffton. In the meantime the local police department had notified Marshal Conrad and when the pair appeared in Bluffton, they were immediately placed under arrest. Detective Patton went to Bluffton and brought the prisoners back to this city. They were seen this morning by Mr. Grafton and he was very positive in his identification of one of them, the smaller man who gave him the name as Edward Newman, whom Grafton recognized as the man who grabbed his money. He was not so positive in his identification of the other prisoner, who registered as Edward Lang, but both will be held on the charge of highway robbery.

Minor Cases. Four youths who gave their names as Frank Bullock, Willie Gibbs and Jesse and Earl Thomas, were locked up last night for disorderly conduct and this morning they were arraigned on charges of violating the curfew ordinance. They were fined one dollar each and Gibbs and Bullock paid their assessments, but the two Thomas boys were committed to the city prison in default of the amount of their fines.

Charles Wade and Frank Fowler, two tramps who were arrested yesterday on suspicion, were released this morning.

Lou Hussy and Ralph Jackman, charged with disorderly conduct, were fined \$2 each this morning.

CHARMING

Society Event in Toledo Last Evening.

Marriage of Miss Trout to Mr. Richardson.

The Fair Bride, Who is a Niece of Mr. J. W. Van Dyke, Has Many Friends in This City.

This morning's edition of the Toledo Times contains the following account of the Trout-Richardson wedding which occurred in that city last night. The bride, who is a niece of Mr. J. W. Van Dyke, has often visited at the Van Dyke home, and has many friends here:

One of the most charming of home weddings was that, last evening, of Miss Margaret Maude Trout, daughter of Mr. and Mrs. M. C. Trout, of 2301 Lawrence avenue, to Mr. Walter Cornell Richardson, of Philadelphia.

Promptly at eight o'clock Rev. John Reid Shannon preceded the bridal party downstairs and into the front parlor, through a white-ribbed aisle. Before a background of greenery and underneath an artistically arranged bow and arrow of white asters and rosebuds, the members of the bridal group took their stand, while Abbie Bennett, of Anderson, Ind., sang softly "Or Promise Me." Mr. Fredrick Trout played the wedding march. The bride wore an exquisite gown of white panne crepe, appliqued with handsome cream lace. A veil and orange blossoms completed her toilet and she carried a bouquet of lilies of the valley. Her sister, Miss Elizabeth Trout, acted as maid of honor, and wore a beautiful toilet of pink crepe, with garniture of pink liberty silk. Her flowers were pink roses. The groom was attended by his brother, Mr. James Richardson, of Philadelphia.

After the ceremony a wedding supper was served to about 100 guests. The bridal table bore a handsome centerpiece of American Beauty roses and the crystal candlesticks were tied with large satin bows of the same rich tint. Maidenhearts completed the decoration of the table, over which hung bouquets of smiles, wreathing the chandeliers. On the sideboard was a profusion of roses, asters and greenery. The back parlor was trimmed with varicolored asters and a great mass of goldenrod, closed in the fireplace. American Beauty roses were used in the music room. At the bridal table covers were laid for the bride and groom, Miss Elizabeth Trout, Mr. James Richardson, of Philadelphia; Miss Abbie Bennett, of Anderson, Ind.; Miss Jessica Marshall, of Frederick, Md.; Miss Grace Rayner, of New York; Miss Thaddeus Trout, of Lima, O.

Mr. and Mrs. Richardson left during the evening on an extended wedding trip. They will visit Mr. Richardson's old home in Canada and will also go to Buffalo, Niagara, Atlantic City and various other places of interest, before going to their new home in Philadelphia, where they will be at home to their friends about the middle of October. The bride's going-away gown costume was a tailor-made gown of blue broadcloth, stitched in white, an imported pongee silk waist, with applique trimming and a blue hat to match the suit. Quantities of handsome presents were received by the young couple. The groom's gift to the bride was a gold brooch, set in diamonds. The bride is a favorite in a wide circle of Toledo friends who, while wishing her all joy, have much cause for regret in losing her from their midst. Mr. Richardson is a rising young business man of Philadelphia and is manager of John Wannamaker's book department in that city.

The out-of-town guests present at the wedding last evening, were: Mrs. J. W. Van Dyke, Miss Halsey Hutchinson and Mr. Thaddeus Trout, of Lima, O.; Mr. Frederick Luke, of New York; Miss Mae Van Doren, of New York; Miss Minnie Patton, of Altoona, Pa.; Miss Abbie Bennett, of Anderson, Ind., and Mr. James Richardson, of Philadelphia.

If anything ails you, go and have your case carefully diagnosed beyond the question of a doubt. Dr. Wood, at Lima House until Tuesday evening, Sept. 23.

Will be Pitched in This City

Next Tuesday.

Arrangements are Now Under Way

For the Mayor Johnson Meeting to be Held Here on That Day.

W. K. Boone, Tom Edwards and A. L. Belch Having a Bitter Contest of Clerkship Nominations—Political Points.

C. J. Wagner, of Cleveland, a prominent young Democrat who is assisting Mayor Tom L. Johnson, of Cleveland, in the latter's campaigning tour of the state, is in Lima today for the purpose of making some preliminary arrangements for the meeting that Mayor Johnson and the Rev. H. S. Bigelow, Democratic candidate for secretary of state, will hold in this city next Tuesday. The location for the tent in which the speaker will address the people of Lima and Allen county on the issues of the present campaign, has not yet been decided upon.

There is now some tall hustling going on among the Republican aspirants for places on the county ticket that will be nominated at the convention which is to be held in this city next Saturday. The main fight is between Tom Edwards, A. L. Belch and W. K. Boone, for the nomination for county clerk. When the Times-Democrat announced a week or two ago that W. K. Boone was a candidate for the nomination for clerk, Edwards and Belch refused to consider him a factor in the race. They argued that he was a retired merchant with a large fortune who had never taken a very active part in politics and consequently would make no effort to secure the honor attending the nomination. They were mistaken, however, for Mr. Boone is as hot on the trail as Doc Hammond was in his race for Justice of the Peace last spring. He is canvassing the nomination with both feet and Belch and Edwards have quit fighting each other and are now paying their attention to Boone. The latter is meeting with considerable opposition among the friends of ex-mayor McComb, who declare that he and his friends in the Sixth ward were responsible for the overwhelming defeat McComb met in his race for sheriff last fall. There will be something doing in the Republican camp before the week is out.

Keep your eye on the indicator for Gregg & Co. are going to give a grand fur opening.

THE STAGE

Everybody has heard of "Lovers Lane," the most famous of the Wm. A. Brady's productions, which comes to Fauror opera house for matinee and night on next Saturday, Sept. 20. It is one of the most popular of Mr. Brady's splendid offerings and will delight young and old alike. The production will be identical with that seen for fourteen weeks in Philadelphia last spring, five months in New York, and in Atlantic City for several weeks. Clyde Fitch, the author, is America's foremost dramatist and he has written a delightful comedy of New England life, peopled with quaint and funny characters, alive with merry laughing children at their school-time songs and games and presenting a series of exquisite stage pictures including an orchard of real apple trees in full bloom. "Lovers Lane" goes straight to every heart and has become a household word all over America. The splendid original company will soon be here. The next sale for both performances opens tomorrow morning at 9 o'clock.

ILL HEALTH

Forces M. J. Wertheimer to Leave the City.

Will Dispose of His Interests Here and Reluctantly Seek a More Favorable Climate.

M. J. Wertheimer, of the retail clothing firm of Loewenstein & Wertheimer, who have announced a dissolution of that partnership for the near future, has been persuaded to take this step by reason of failing health, his physicians having advised him that he must seek a more favorable climate. Mr. Wertheimer came to this city a few years ago from Deadwood, South Dakota, and has been very successful in his local business venture with Mr. Leon Loewenstein. He says that Lima is one of the best cities in the country and that he will leave here very reluctantly, but as he values good health he is compelled to follow the advice of the physicians he has consulted. He will dispose of his interests there about the last of the year.

KAISER'S ARMY WEAK.

General Corbin Says In War It Would Be Annihilated.

BEING TARGET FOR LONG RANGE

American Officer After Reviewing the Manoeuvres Points Out That Infantry System of Close Formation Is Not Fitted to Modern Warfare.

Unsuspectingly and innocently Emperor William appealed to the United States and British military experts, Adjutant General Corbin, General Young, General Wood, General Sir John Hamilton and General French, to pass judgment upon his army after the parades on the Tempelhof field and at Frankfurt-on-the-Oder, writes the Berlin correspondent of the New York Herald. Not a little dismayed was the emperor when both American and British experts, fresh from the campaigns in the Philippines and South Africa, were unanimous in declaring that the infantry system of the German army, of which his imperial majesty is most proud and confident, is impracticable in action and a weak link of the army.

The emperor one evening gathered the British and American officers about him and asked their opinions and at a gain dinner again took Adjutant General Corbin, General Young and General French to discuss matters pertinent to his army system. The emperor showed eagerness to learn the impressions of these generals, whose experiences have been enriched by active engagements in the Philippines and the Transvaal.

The emperor likes criticism and invites it, but he was hardly prepared for the candor and honesty with which his guests attacked the infantry system as a primitive organization which would tumble together like a house of cards under a galling fire of long distance artillery and other modern weapons of warfare.

Adjutant General Henry C. Corbin acceded the Herald correspondent an interview, in which he remarked: "In drill and compact organization there is nothing like the German infantry the world over. It would have been in tact in former days, with the caliber and range of guns which permitted hostile armies to approach to within a few hundred yards. But in modern warfare, with artillery that reaches several miles and rifles with a range of 4,000 yards, the German infantry would be annihilated."

"It would be a shining target if some soldiers should be behind embankments a great distance away. The German infantryman, so far as I am able to judge from the parades is made of stern fighting timber, but with the system of solid ranks and automatic discipline his fighting force is reduced to a minimum. Against long range artillery and rifles in my opinion he would be useless in action."

"Both British and American generals agree in this opinion. General Young, who comes from the Philippines, and General French, who was in South Africa, agree that the compact character and system of infantry of the German army would be of no avail in modern warfare."

"Whoever imagines the emperor has attained pre-eminence by accident of birth makes a big mistake. The emperor possesses great force of character and is opinionated, but that is a characteristic of all great men. He believes in the army and his infantry system. He clings to the old infantry formation and discipline, condemned by modern warfare. The emperor also is very democratic and surprises me. He does not permit promotions from the ranks, which explains the lack of pay officers in the German army."

"In the United States army promotion from the ranks has proved itself a commendable principle. It has its disadvantages; but, as a rule, it yields excellent results. German officers are excellent military men and well trained, but it surprises me that promotion from the ranks is not in practice in the German army."

The view of General Corbin relative to the German infantry is in accord with that uttered by members of the British army in the delegation invited to attend the maneuvers.

Admiral's Son an Actor.

Frederick Sumner, son of Rear Admiral Sumner, whose flagship, the Iowa, went ashore on the coast of Brazil the other day, is playing a modest part in a New York theater, says the World. The young man's identity was discovered by an accident. He then said that he had decided to try his hand at acting and had done so with the knowledge of only a few of his friends.

Young Sumner is a descendant of Charles Sumner, the famous orator. His father intended to give him a naval education, but the young man objected, and when the admiral found that his son was bent on joining a circus he compromised by allowing him to enter the dramatic field.

PELL, RIDDLE.

Alleged Wife-Murderer Run Down by Private Citizens.

Winfield, Neb., Sept. 15.—Dave Leary, a Marylander, started out alone to find Niengend, the murderer. Leary came upon two men driving some cattle and thought one of them was Niengend. Leary went to a nearby farmhouse and secured a gun and assistance of Perry Borum, who had a target rifle. The two men soon came upon Niengend. They called upon him to throw up his hands. The murderer drew a revolver and fired five times at Leary without effect, at the same time using his companion as a shield. Then Leary and Borum poured a fusillade of shots into him until he fell. He was brought to Winfield and doctors are attending him. They believe he will live. Niengend a week ago, with little provocation, murdered his divorced wife and her father and wounded his former wife's mother and sister.

Massachusetts Democrats.

Boston, Sept. 15.—Acrimony was not wanting for a time in the Democratic state convention in Tremont temple, but in the end harmony was restored and the state ticket was enthusiastically greeted. William A. Gaston of Boston was nominated for governor. It might be said that in naming Colonel Gaston to head the ticket precedent was shattered, inasmuch as he was nominated and then given a platform of his own dictation. The fight was over the national issues on the platform. The test of strength was between Colonel Gaston on the one hand and George Fred Williams, the stalwart leader of the Silver Democrats, on the other. In this battle Mr. Williams was routed. The platform adopted is a repudiation of the Kansas City platform.

Warrants for Kelley.

St. Louis, Sept. 15.—Duplicate warrants for the arrest of Charles F. Kelley, who is being sought for on the charge of bribery and perjury in connection with the municipal bonds cases, were issued and placed in the hands of detectives. Circuit Attorney Folk had been informed from an apparently authentic source that Kelley was in hiding in the house of a relative in Lincoln avenue. The detectives failed to find the fugitive. Additional members of the house of delegates were before the grand jury.

Drunken Husband's Deed.

Wyandotte, Mich., Sept. 15.—Charles Brooklyn 85, one of the oldest residents of this city attacked his wife with a butcher knife while in a drunken frenzy. He stabbed her 12 times and then plunged the knife into his own throat. A neighbor attracted by Mrs. Brooklyn's screams, arrived in time to arrest the knife from the old man's hand before he could stab himself again. Mrs. Brooklyn lost so much blood that she will probably die and Brooklyn's wound may prove fatal.

Grecoes Failed.

Philadelphia, Sept. 15.—Grecoes, the king of trotting horses, failed in an effort to break the record here. The first attempt resulted in a break about 150 yards from the finish. The time for the mile being 2:08. The second attempt was a little better, the mile being trotted in 2:05 as follows: Quarter, 30 1/2; half, 1:01 1/2; three-quarters, 1:34 1/4; mile, 2:05.

SOCIALISM FOR AMERICA.

John G. Gohier, Noted French Author, Says It Is Inevitable.

Urban Gohier, the man that hurried at the French army, whose Dreyfus was in prison, three books full of facts, arrived at New York the other day, says the New York Journal. He is thin, dark and nervous and has gathered for three months facts about us. They are new enough to him to make three books.

They are to be buried at France. He began to collect them in San Francisco. He came to New York from there by easy stages; lectured at San Francisco, at the Chicago university, studied negroes, trusts, social manners and labor organizations. About labor organizations he is enthusiastic. "They are amazing," he says. "In France they talk a great deal of socialism and do nothing for its progress. They are a multitude of groups with a mob of leaders."

"In France they have anarchy in socialism. Here the workmen are admirably organized, with national chiefs who are masters in diplomacy and who are united. The trusts are organizations of capitalists placing themselves in the way of being swallowed by the government."

"This is inevitable. America will have socialism while we watch and learn nothing from our poor Europe. Oh, they have no idea on the other side of the Atlantic of the resources that are here. They know J. Pierpont Morgan. They say of him and the Americans, 'He is their emperor.' Piff! What and see. Today he ought to stop the darkening of New York's air with soft coal. I was told that the air here was as light as that of Paris. I did it similar to London's. Your newspapers are splendid. I was editor of L'Aurore, which published Zola's famous 'J'accuse' letters in favor of Dreyfus, and I resigned my place there to study methods here."

"You cannot form an idea of how much wider my horizon is. I have learned and learned. No, I am not going to Paris to fight more duels. I have fought five. That's enough. Nor am I going to quarrel about the Dreyfus case again. That's dead. I thought that it was to be a second 'necklace' affair, to make another revolution. It didn't. Wadler-Rousseau quitted everything and everybody. I never saw Dreyfus. He does not know me. He owes nothing to me."

"I went to jail was tried fought duels, made enemies of friends, not for him but for his cause. We are quits. But the reforms that I suggested in 'The Army Against the Nation,' 'The Prisoners,' and 'The Communion' and 'The Army' are necessary. I will tell why again in one of my books on America."

Encampment of the Boys In Blue

THE thirty-sixth national encampment of the Grand Army of the Republic at Washington in October promises to be one of the most interesting in the history of the great organization. Ten years ago the encampment was held at the national capital, and the experience gained then has been of great value to the local committee in once more preparing for the veterans of the civil war.

The entertainment of the great crowd of visitors expected has practically

corps. The annual report made in June of last year showed 3,100 corps and 144,387 members.

The Ladies of the G. A. R. has an active membership of 75,000. From the viewpoint of the Grand Army veterans the selection of a commander in chief to succeed General Eli Torrance of Minnesota is of prime importance. The candidates most prominently mentioned are John McElroy of Washington, the present senior vice commander; General Thomas J. Stewart of Pennsylvania and General John C. Black of Chicago. Ex-Governor Robie of Maine has also been named as a possible candidate.

Since the encampment was held at Washington ten years ago there has been a heavy death list among the great war generals. There are living today, as nearly as can be remembered, of the army commanders, properly speaking, only Schofield of the Army of the Ohio and O. O. Howard of the Army of the Tennessee; of the corps commanders only Sickles of the Third, Carl Schurz of the Eleventh and Greenville M. Dodge of the Sixteenth, and of the cavalry corps General James H. Wilson of Delaware. To these may be added the name of Lieutenant General Nelson A. Miles, who commanded a corps in the civil war for a short time before being mustered out. He was then but twenty-six years of age and the youngest corps commander in the army.

A great effort will be made to have all of these men in attendance. They will be the heroes of the day. By 1912, should the encampment then chance to meet in Washington, the honors would more largely go to the division and brigade commanders, for it stands to reason that of the survivors of the civil war those who were old enough to hold important positions of command in 1902 will as a rule pass over the dead line first. The Grand Army en-

been made a government affair, and the arrangements are as nearly perfect as can be attained.

The programme of the encampment opens on Sunday, Oct. 5, when patriotic services will be held in the various churches. At the Empire in Convention hall on Monday evening addresses will be delivered by speakers of national reputation.

Tuesday there will be a parade of special veterans' associations, detachments of regular troops and District of Columbia militia. There will also be an excursion to Mount Vernon for the encampment delegates, and in the evening General Torrance, commander in chief of the G. A. R., and his associates will be extended the freedom of the city at a public meeting.

On Wednesday will be the grand review of the Grand Army of the Republic by the commander in chief and the president of the United States, with an elaborate reception in the evening at Convention hall. On Thursday and Friday will be held the business sessions of the encampment.

Besides the encampment of the Grand Army, there will be a national convention of the Woman's Relief corps, of which Mrs. Calista Robinson Jones of Bradford, Vt., is national president. The ladies of the Grand Army of the Republic, Mrs. Wall of Lawrence, Kan., national president, will also meet in convention.

The Woman's Relief corps is an organization created by the mothers, wives, daughters and sisters of Union soldiers of the civil war of 1861-65 for the purpose of aiding and assisting the Grand Army of the Republic and to

campments of 1920 and thereafter will necessarily be gatherings chiefly of those who were private soldiers in the war.

Ten years ago the Ohio contingent as it passed through Pennsylvania avenue, Washington, had one ex-president in the line, and one who was later to be president is believed to have been there too. Both Hayes and McKinley are gone. In fact, a list of the prominent surviving officers who participated in that parade, by comparison with those who can be in the national capital in October, would show with great distinctness the ravages of time.

The leading spirits in the Grand Army have announced their intention to celebrate the opening of the thirty-sixth year of the society by raising funds for a statue of Major B. F. Stephenson, who founded the organization.

The Grand Army was organized in Decatur, Ill., April 6, 1866, a few days less than a year after the surrender at Appomattox. The first department encampment, then called a "convention," was held June 26, 1866, at Springfield, Ill., and the state of Illinois was constituted a department of the Grand Army of the Republic. General John M. Palmer, late a senator from Illinois, was elected department commander. The national body was organized at Indianapolis Nov. 29, 1868, with General Stephen A. Hurlbut as commander in chief. Dr. Stephenson, while the organizer and founder of the great military organization, was never honored with an elective office in it.

Special features have been planned to interest the great throng of general visitors. The Potomac Boat club is to hold a regatta, in which craftsmen of international repute will compete for prizes.

The local committee of the G. A. R. has provided for the most elaborate display of fireworks ever seen at the national capital. This display will be held on the monument grounds nightly, and there is adequate room for over 100,000 people to view the pyrotechnic effects.

Sleeplessness

Is akin to insanity. Many a woman realizes this as she lies awake hour by hour, peeping the darkness with phantoms, starting at the creaking of the bed or the rustle of the bedclothes.

Such symptoms in general point to disease of the delicate womanly organs, and a constant drain of the vital and nervous forces. This condition cannot be overcome by sleeping powders. The diseased condition must be cured before the consequences of disease are removed.

Dr. Pierce's Favorite Prescription cures the womanly diseases which cause nervousness and sleeplessness. It is the best of tonics and invigorants, nourishing the nerves, refreshing the appetite and inducing refreshing sleep. Irregularity, weakening drains, inflammation, ulceration and female weakness are perfectly cured by "Favorite Prescription."

"My wife was sick for over eight years," writes Albert H. Pike, Esq., of Alton, Grand Co., Tenn. "She had uterine disease and was treated by two physicians and got no relief. At last I read about Dr. Pierce's medicine and we decided to try his 'Favorite Prescription.' I sent to the drug store and got one bottle and the first dose gave her sleep. She had not slept any for three nights. Being sure that it would cure her I sent for five more bottles and when she had taken the sixth bottle she was sound and well."

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

A GREAT FUEL SAVER

Wash day always increases the fuel bill if you boil your clothes. Don't do it. There's a better way—the *Easy Task* soap. *Easy Task* is a pure white laundry soap which will make your clothes bright and clean without boiling. It costs no more than the common yellow soap and will last much longer. It's 5 cents a bar at all grocers.
